A revolutionary size for silver halide prints!**

A revolutionary size for silver halide prints

The 24.5 inch maximum paper width can satisfy a diverse range of large-format print demands.

Countless applications

Large-format prints

Portraits, pro lab prints

Wedding album photos, etc.

2 different paper magazines can be loaded at the same time

The 24.5 inch magazine has a handle and casters for easy magazine replacement.

*2 magazines of the same size cannot be loaded at the same time.

Can provide a wide variety of print sizes with just one machine

*Noritsu Quick Access (application software) can be used to make prints. It is also possible for the customer to create application software for this purpose as long as it is compatible with the LPS-24PRO interface.

Can upgrade the capacity!

The High-Capacity Modification kit provides a processing capacity that is 1.5 times higher than the standard LPS-24PRO. Only specified paper and chemicals can be used.
